Thor anti-graffiti coating is a permanent graffiti resistant coating providing high levels of protection from graffiti damage. With a 2 pack clear gloss polyurethane formulation with high chemical and abrasion resistance providing a cost effective cleaning solution.

**Features**

- Permanent clear coating that can be applied over a wide variety of substrates
- Excellent resistance to exterior exposure and chemical resistance
- Easily applied and fast drying. Single coat only required in most applications
- Economical graffiti system when used with Thor’s Graffiti cleaning gel.
- Tough coat, impact and abrasion-resistant for areas of high wear.
- Significantly lower maintenance requirements.

**Uses**

Thor Anti-Graffiti polymeric coating is a Permanent graffiti resistant coating providing high levels of protection from graffiti damage.

The product is supplied as a two pack clear gloss polyurethane formulation with high chemical and abrasion resistance providing a cost effective cleaning efficiency.

May be applied over concrete stone, steel and previously painted surfaces in a single coat.

May be applied over new and old surfaces and structures that are subject to Graffiti attack. Use Thors Graffiti removal gel to clean surface.

**Resistance Guide**

**HEAT RESISTANCE**
Highly resistant to temperatures up to 110°C.

**WEATHERABILITY**
UV stable and high resistance to weather retaining high gloss finish.

**SOLVENTS**
Highly resistant to most solvents, alcohols and cleaning solutions. Avoid long term exposure.

**ACIDS**
Highly resistant to most common acids, suitable for splash and spillage exposure.

**ALKALIS SALTS**
Excellent resistance to splash and spillage of most common alkalis. Excellent resistance to neutral and alkali salts

**WATER**
Repels rain and condensation. Not recommended for permanently damp or immersed exposure. Hydrophobic qualities.

**ABRASION**
Tough flexible coating with outstanding abrasion resistance.

**Specifications**

- **Classification:** 2 Pack Polyurethane
- **Finish:** Gloss
- **Color:** clear
- **Solids by Volume:** 100%
- **Thor Thinners:** (910-751)
- **TG Level:** 100%
- **Wet Film per coat:** 75 microns
- **Dry film per coat:** 75 microns
- **Flash Point:** 27 deg C
- **Drying times:** Touch dry 30mins@ 20°C Recoil within 1 hr & up to 16 hrs
- **Cure Time:** Rain etc. 1 hour Light use - 24hrs . Full cure - 7 days
- **Pot life:** 1 hour
- **Mix Ratio:** 4 : 1
- **Thinning:** Up to 30% by volume
Dangerous goods classification

- UN Number 1866
- DG Class 3
- Packing Group III
- Hazchem Code 3[Y]
- Poisons Schedule S6

Please refer to the Material Safety Data Sheet (MSDS) for further details.

Packaging: 20l (16+4)

Application: Spray preferred method.
Roller & brush (small areas, cutting in)

Safety:

A Technical Data Sheet (TDS) is available from the Rhino Industrial Coating Solutions Website. www.rhinoindustrialsolutions.com.au
Read the TDS carefully prior to use as application or performance data may change from time to time.

Use with adequate ventilation. Do not permit flame or other ignition source within work area. Wear protective clothing, gloves and eye protection (Goggles, Safety Glasses and/or Face Shield).

Keep out of the reach of children. Do not take internally. In case of ingestion, seek medical help immediately. May cause skin irritation upon contact, especially prolonged or repeated. If skin contact occurs, wash immediately with soap and water and seek medical help as needed. If eye contact occurs, flush immediately with clean water and seek medical help as needed. Dispose of waste material in accordance with federal, state and local requirements.

Product Guarantee

Rhino Industrial Coating Solutions (RICS) is committed to providing all customers with sound technical advice, product that is backed by more than 30 years of manufacturing expertise, and an acceptance of the responsibilities associated with our specifications and systems. Warranties of up to 15 years can be issued where an agreed set of Quality assurance procedures are adopted, consisting of tailored specifications, maintenance schedules and on-site support. Please contact RICS for further information.

Subject to the conditions in Section 68A of the Trade Practices Act and any other relevant legislation within Australia, our liability is expressly limited to the replacement of defective goods. We shall not be liable for incidental or consequential damages, directly or indirectly sustained, nor for any loss caused by application of these goods not in accordance with the written advice.

Disclaimer:

This Technical Data Sheet (TDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time.

Read carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which the product will be applied.
Our responsibility for products sold is subject to our standard terms and conditions sale.

Rhino Industrial Coating Solutions does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether or not in accordance with any advice, specification, recommendation or information given by it.
