1. Identification of the Material and Supplier

**Product Name:** THOR Anti Graffiti Surface Binder 20  
**Other Names:** Anti Graffiti Surface Binder 20, Anti Graffiti Coating Prep  
**Recommended Use:** Strengthen and sealer for limestone.  
**Supplier:** Rhino Industrial Coating Solutions Pty Ltd  
**Address:** 293 Earnshaw Rd, Northgate, QLD, 4013  
**Telephone:** 1300 880 828  
**Facsimile:** +61 7 3219 6833  
**Manufacturer and Emergency Contact:** Crommelin +61 8 9458 5711  

**Important Notice:** This Material Safety Data Sheet (MSDS) is issued by the Manufacturer in accordance with the Code and guidelines from the Australian Safety and Compensation Council (ASCC, formerly National Occupational Health and Safety Commission -NOHSC). The information in it must not be altered, deleted or added to. The Supplier will not accept any responsibility for any changes made to its MSDS by any other person or organisation. The Supplier will issue a new MSDS when there is a change in product specifications and/or ASCC standards, guidelines or regulations.

2. Hazards Identification

**Hazard Classification:** NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOOD. Not classified as Hazardous according to the criteria of NOHSC. Not classified as a Dangerous Good according to the Australian Dangerous

**Safety Phrases:** S23 (3) Do not breathe spray  
S24/25 Avoid contact with skin and eyes  
S36/37 Wear Suitable protective clothing

3. Composition/Information on Ingredients

4. First Aid

**Swallowed:** Do not induce vomiting. Wash mouth and lips thoroughly with water. Seek medical advice if symptoms persist.

**Eyes:** Immediately flush gently with running water, holding eyelids open for 15 mins. Seek medical attention.

**Skin:** Wash affected area immediately with soap and water. If irritation develops seek medical attention.

**Inhaled:** Water-based, treat for drowning

**First Aid Facilities:** Eye wash and normal wash room facilities.

**Advice to Doctor:** Treat symptomatically.

**Other Information:** For advice in an Emergency, contact Poisons information centre Ph: 13 11 26 (Australia) or a doctor.
5. Fire Fighting Measures

Flammability: Not Flammable
Suitable Extinguishing Media: Not combustible however, if material is involved in a fire use fine water spray, normal foam, or dry agent (carbon dioxide, dry chemical powder)
Hazard from Combustion: Under fire conditions the product may emit toxic fumes including carbon monoxide and carbon dioxide.
Product Specific Hazards: This product is not combustible. However, under fire conditions, following evaporation of the aqueous component, the organic components may decompose and/or burn.
Precautions in Connection with Fire: Fire fighters should wear self-contained breathing apparatus and full PPE to prevent exposure to vapours, fumes and products of combustion. Water spray may be used to cool down heat-exposed containers.

6. Accidental Release Measures

Emergency Procedures: Avoid accidents, clean up immediately. Wear appropriate PPE to minimise exposure. Absorb spilt product with the use of inert absorbent material, sand or earth. Collect and place in labelled containers. Dispose as per local, state and federal government regulations. Do not allow large spills to enter drains or sewers, inform local water authorities and EPA in accordance with local regulations.

7. Handling and Storage

Precautions for Safe Handling: Wear appropriate PPE to prevent inhalation, skin and eye contact. Use in areas with adequate ventilation. Practice good personal hygiene. Keep containers closed when not in use.
Conditions for Safe Storage and Transport: Store in a cool, dry, well ventilated place, away from incompatible storage materials such as strong acids, strong bases and oxidising agents. Protect from freezing and against physical damage. Keep out of reach of children.
Spills and Disposal: Absorb spilt product onto inert absorbent material, sand or earth and collect and place in labelled containers. Dispose as per local, state and federal government regulations. Do not allow large spills to enter drains or sewers, inform local water authorities and EPA in accordance with local regulations.
Fire/Explosion Hazard: This product is not combustible. However, under fire conditions, following evaporation of the aqueous component, the organic components may decompose and/or burn.
8: Exposure Controls/Personal Protection

Exposure Limits: None established for the mixture by NOHSC, Australia.
Biological Limit: No Biological limit allocated
Ventilation: No special ventilation requirements. Use with good ventilation to keep airborne concentrations as low as possible. Where vapours or mists are generated a local exhaust, ventilation system drawing vapours away from workers’ breathing zone, should be used.

Personal Protection: Normal site PPE. Observe good industrial hygiene.
Respiratory Protection: Not normally required. If engineering controls are not effective, then an approved respirator with a replaceable organic vapour filter should be used.
Eye Protection: Safety glasses with side shields or goggles, as appropriate.
Hand Protection: Use chemical resistant gloves.
Body Protection: Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended.

9. Physical Description and Chemical Properties

Appearance: Clear of slightly cloudy liquid.
Odour: Mild Odour.
Melting Point: 0°C (water)
Boiling Point: 100°C (water)
Solubility in Water: Miscible in all proportions
Specific Gravity: 1.15
pH Value: 10.5-11.5
Vapour Pressure: 17.5mm Hg @ 20°C (water)
Vapour Density: Not Available
Evaporation Rate: Not Available
Flash Point: Not Available
Flammability: Non - combustible liquid
Flammable Limits Lower: Not Applicable
Flammable Limits Upper: Not Applicable
Percent Volatiles: 80%

10. Stability and Reactivity

Chemical Stability: Stable under normal conditions of storage and handling.
Incompatible Materials: Oxidising agents, strong acids and strong bases.
Reactivity: Does not react under normal storage and handling conditions.
Hazardous Polymerisation: Will not occur.
11. Toxicological Information

**Toxicological Information:** Not available for this material.

**Swallowed:** Slightly irritating, may affect digestive tract when swallowed in volume.

**Eyes:** Slightly irritating, may affect eyes with prolonged exposure.

**Skin:** Slightly irritating, may affect skin on prolonged contact.

**Inhaled:** Slightly irritating, may cause nausea on prolonged contact.

**Chronic Effects:** Not Available.

12. Ecological Information

**Eco toxicity:** Not Available.

**Persistence/Degradability:** Not Available.

**Bio accumulative Potential:** Not Available.

**Environmental Protection:** Do not discharge the product into drains, waterways or sewers.

13. Disposal Considerations

**Waste Disposal:** Disposal of the spilled or waste product must be done in accordance with the applicable local and national regulations.

14. Transport Information

**Road and Rail Transport:** Not classified as Dangerous Goods according to the Australian Code for the transport of Dangerous Goods (ADG).

**Marine Transport:** Not classified as Dangerous goods by criteria of international Maritime Dangerous Goods Code (IMDG).

15. Regulatory Information

**Regulatory Information:** Not classified as Hazardous according to criteria of National Occupational Health and Safety Commission (NOHSC), Australia.

Not classified as Scheduled Poison according to the Standard for the Uniform of Drugs and Poisons (SUSDP).

**Poisons Schedule:** Not a Scheduled Poison.

**AICS (Australia):** All chemicals are listed on the Australian Inventory of Chemical Substances (AICS) or are otherwise in compliance with National Industrial Chemicals Notification and Assessment Scheme (NICNAS) requirements.
16. Other Information

Abbreviations:    mmHg – Millimetres of Mercury
                  CAS – Chemical Abstract Service Number (used to uniquely identify chemical compounds)

Date of Issue:    Prepared August 2015
Supersedes:       N/A
Contact Person/Point:

Crommelin Technical Manager/Chemist: Phone: +61 8 9458 5711
Emergency: Poisons Information Centre 13 11 26
